Product Description

Goat Polyclonal anti-ADAM12 Antibody

Lot

T1

Contents Description

This product contains 100ug of Immunogen affinity purified Goat Polyclonal anti-ADAM12 Antibody supplied in Tris-saline (pH7.3), with 0.5% BSA and 0.02% Sodium Azide (NaN₃) preservative.

Hazardous Ingredients

1. **Antisera/Ascites** - No known toxicity for this biological material.
2. **Bovine Serum Albumin (BSA)** - No known toxicity for this biological material. (Applies only to buffers containing BSA.)
3. **Sodium Azide (NaN₃)** – Azide forms explosive chemical compounds with lead and copper plumbing. Care must be taken to wash waste down drains with large volumes of water. LD50 oral dose - 27 mg/kg. Wash all affected areas with large volumes of water and if swallowed consult your physician immediately.
4. **Tris** – No reported/known cases of toxic or harmful reactions. Non-toxic. May cause discomfort if swallowed. Avoid contact with skin and eyes. If swallowed, drink plenty of water.

Quality Control Testing

This lot passed all internal testing within acceptable limits and staining patterns match those reported in primary literature.

Country of Origin

This product and all of its components were derived in the US.
