

CERTIFICATE OF ANALYSIS

Catalog Number

NB600-341

Product Description

Goat Polyclonal anti-cMyc Antibody [HRP]

Lot

P-12

Contents Description

This product contains 0.1mg of immunogen affinity purified goat antisera in phosphate buffered saline (PBS) containing 0.2% BSA and 0.1% Pro-Clean 400

Hazardous Ingredients

1. **Antisera** - No known toxicity for this biological material.
2. **Phosphate buffered saline (PBS)** - No known toxicity for this product. May cause eye irritation. May cause skin irritation. Ingestion of large amounts may cause nausea and vomiting, rigidity or convulsions. Continued exposure can produce coma, dehydration, and internal organ congestion. May cause respiratory tract irritation.
3. **Bovine Serum Albumin (BSA)** - No known toxicity for this biological material. (Applies only to buffers containing BSA.)
4. **Pro-Clean 400** - Excessive inhalation may cause irritation of mucous membranes. Corrosive, severe eye damage can result from direct contact. By ingestion may be fatal. Skeletal muscle paralysis affecting the ability to breath. Severe swelling of the larynx, circulatory shock, convulsion. May cause severe skin irritation. Emergency and First Aid Procedures: For Eye Contact: Flush with water for at least 15 minutes. Contact a physician. For Ingestion: Do not induce vomiting, contact a physician immediately. Drink promptly a large quantity of egg whites, gelatin solution or, if these are not available, drink a large quantity of water. Avoid alcohol. For Skin Contact: Rinse area of contact with plenty of water. Remove contaminated clothing.

Quality Control Testing

This lot passed all internal testing within acceptable limits and staining patterns match those reported in primary literature.

CERTIFICATE OF ANALYSIS

1. Western Blot

Western Blot: c-Myc Antibody [HRP] [NB600-341] - 200, 100, or 50 ng of E. coli whole cell lysate expressing a **multi**-tag fusion protein. Antibody used for WB at 0.4 ug/ml (1:25,000).

2. Concentrations:

- P-13 – 1.0 mg/mL
