Product Description
Rabbit Polyclonal anti-ZEB1 Antibody

Lot
A1

Contents Description
This product contains 100uL of immunogen affinity purified rabbit polyclonal anti-ZEB1 antibody supplied in Tris-buffered saline with 0.1% BSA and 0.09% Sodium Azide.

Hazardous Ingredients
1. Antisera/Ascites - No known toxicity for this biological material.
2. Bovine Serum Albumin (BSA) - No known toxicity for this biological material. (Applies only to buffers containing BSA.)
3. Tris – No reported/known cases of toxic or harmful reactions. Non-toxic. May cause discomfort if swallowed. Avoid contact with skin and eyes. If swallowed, drink plenty of water.
4. Sodium Azide (NaN3) - Azide forms explosive chemical compounds with lead and copper plumbing. Care must be taken to wash waste down drains with large volumes of water. LD50 oral dose - 27 mg/kg. Wash all affected areas with large volumes of water and if swallowed consult your physician immediately.

Quality Control Testing
This lot passed all internal testing within acceptable limits and staining patterns match those reported in primary literature.

Country of Origin
This product and all of its components were derived in the US.
