

## CERTIFICATE OF ANALYSIS

### Catalog Number

NBP1-07047

### Product Description

Rabbit Polyclonal anti-PDK4 Antibody

### Lot

A3

### Contents Description

This product contains 100uL of immunogen affinity purified rabbit polyclonal anti-PDK1 antibody supplied in PBS with 30% glycerol and 0.1% Sodium Azide.

### Hazardous Ingredients

1. **Antisera/Ascites** - No known toxicity for this biological material.
2. **Glycerol** – Slightly hazardous in case of skin contact (irritant, permeator), of eye contact (irritant), of ingestion, or of inhalation. In the case of eye contact, immediately flush eyes with plenty of water for at least 15 minutes. Cold water may be used. Get medical attention if irritation occurs. In case of skin contact, wash with soap and water. If inhaled, remove to fresh air. If ingested, do not induce vomiting unless directed to do so by medical personnel. In all cases, seek medical attention if irritation persists.
3. **Sodium Azide (NaN<sub>3</sub>)** – Azide forms explosive chemical compounds with lead and copper plumbing. Care must be taken to wash waste down drains with large volumes of water. LD50 oral dose - 27 mg/kg. Wash all affected areas with large volumes of water and if swallowed consult your physician immediately.

### Quality Control Testing

This lot passed all internal testing within acceptable limits and staining patterns match those reported in primary literature.

### Country of Origin

This product and all of its components were derived in the US.
